Sunbeams & clouds

Climb the sunbeams, float down the soft clouds, and reach the sunny top. Rules and counters are on page 2.

Land at the bottom of a sunbeam? Climb up to its top!

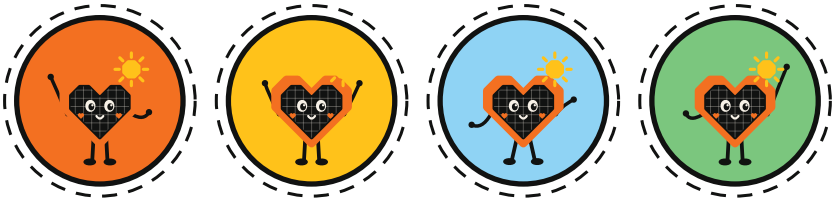

Land on a cloud? Float gently down the dotted path.

Each time you float down, say one kind thing about the player on your left.

Sunbeams & clouds: how to play

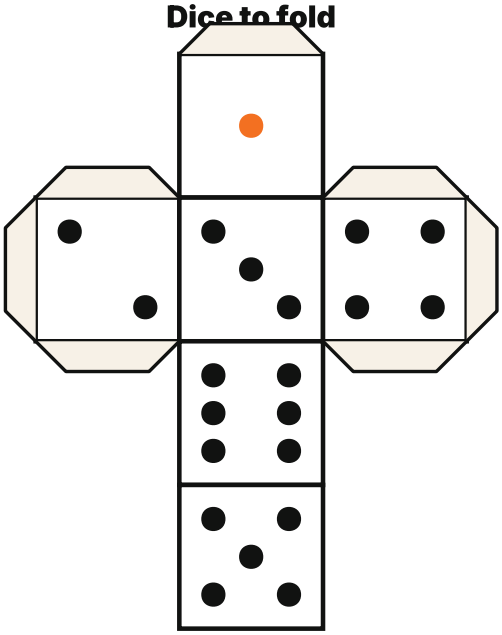

1. Everyone puts a counter on square 1, Sunrise. The youngest player goes first.
2. Roll the dice and move that many squares, following the numbers.
3. Bottom of a sunbeam? Climb to the top. On a cloud? Float down the dotted path.
4. The first player to reach square 36 lights up the Sunny top. Then everyone keeps playing until all players are home, cheering each other in.
5. No dice? Write 1 to 6 on six scraps of paper, fold them, and pick one from a cup.

Counters to cut out

Glue to card, or fold a strip of paper to make it stand.

Dice to fold

Fold, then glue the tabs.

Kindness wins: the game ends when everyone is home.
